First met with the doctor from Capital Women's, I knew immediately that I will be in good hands. Her positive energy during the process assured me that I was doing exactly what I needed to do. She provided top-notch care and comfort and reassured me that everything would be okay for me. It wasn't an easy process for me, but with their help, there was relief within me. I felt so empowered and I am forever deeply grateful for their support.

WORST. PLACE. ON EARTH. GET READY TO BE THERE FOR 6 HOURS! They do not care about their patients. They keep them waiting in a room full of packed women and it seems they don't care who scheduled an appointment first, NO ORDER. FIND ANOTHER PLACE. This place needs to be shut down immediately I'd rather be in a jail cell for an hour than be here for 6. I am the most patient person of all time but this is absolutely horrible.

Don't even bother getting an appointment! There is no point since they over book plus there is no order of calling patients! You have to wait for hours! This place needs to be shut down!

This establishment over books. They constantly check people in without dealing with already checked in patients. I got here at 9am and didn't leave until 2pm. I was the second person to sign in. For someone who is pregnant, the care is trash. The system is trash.

The worst clinic EVER... Unprofessional, dirty, and a long ridiculous wait. My appointment was at 10:00am doctor didn't arrive until 1:00pm no apologies. Thirty patients in the waiting area not an apology to no one. Then the doctor proceeded to stand at reception and gossip with them. No one gives a damn about how many years you dedicated to medicine or Howard University lady get to seeing patients. There's other clinics in the surrounding area that charge the same amount don't waste your hard earned money on these unprofessional disorganized amateurs. Here's the sign unexpected wait to them is having an appointment.

First to Review

This place should be closed. Filthy, unprofessional, unorganized, overcrowded. When I say filthy I mean the trashes were overfilled with waste materials in the operating rooms. Medical facilities should be spotless and sterile. This place was just disgusting. The staff has to be the worst staff in America. The doctor and owner should be ashamed of himself and should be stripped of his medical license and disbarred. He was creepy as hell. The nurses were eating chicken near the medical equipment and

literally complaint the whole time. "2 more and we can get the hell home". No empathy for the terrified women in the room. 8 hour wait times despite scheduled appointments.

Please run and don't come here!!!!!!

This was the worst experience in history. I've never been through a procedure like this but I know this is NOT how it's supposed to go. This is my third visit for the same problem and almost every nurse or I don't even think these are nurses I think they all worked at a front desk at a doctors office once and someone hired them. The elevator smells like mold. Again the staff is rude. Like I cannot stress that enough. I would never ever recommend this place to anyone. They are so so so so UNPROFESSIONAL. This is a traumatic experience and if you don't want want to continuously relive it. This is def not the place to come. Everything is outdated, they room for patients... my studio apartment is bigger than so people are cramped up, no seats available it was horrendous.

For any lady reading this debating on wich abortion clinic to go to please DO NOT come to this one. They arnt registered nurses they arnt knowledgeable about what they're doing. They don't use local anesthetic so You will feel everything happening. It was such a traumatizing experience that I'll sadly have to live with. Hopefully this place gets shut down for not having actual nurses or doctor working there. There are many more reasons as to why this place needs to be shut down. Please don't take the risk like I did!!

The most incompetent and unprofessional "medical" group. It is a complete joke here, I was instructed to do my medical abortion wrong so I now will need a surgical abortion. While waiting to hear what my plan was another woman was in the office complaining about how they sent her home with not enough medication so coincidentally she also had a failed medical abortion because of this company which has no respect for their patients and definitely aren't helpful when it comes to issues like this. Even when asking the "manager" about a phone number she gave a card with a non-working number, unbelievable! I don't wish this kind of experience on anyone. However, if you plan on coming here be prepared to wait at least 4-6 hours if not more and spend money on incompetent medical care for which they don't let you use your insurance they want everyone to pay out of pocket.

The most disturbing clinic in the northwest. The staff was eating carry out and the smell of egg rolls filled up the office . I waited 4 hours for my surgical and the physician had on flip flops and she was 9 MONTHS PREGNANT! I didn't feel comfortable with her doing my procedure because she was so pregnant. I then asked to do the non surgical since I had already paid . She then refused to assist me and refused to refund me my \$400 . I assume she was offended that I didn't want a 9month pregnant woman giving me an abortion. I had to then call the police in order to get a refund .

I would recommend any place but this one.

Ladies please read reviews . It'll save you time and money
