OTHER EXPLANATIONS (Legal Review, Return to Investigation, etc.)
1)
2)

CLOSURE CODE GUIDE

Code	Closure	Description
	Application	Decision to grant an unrestricted license.
A-1	Care rendered was within standard of care	The evidence establishes that the Respondent met or exceeded the standard of care.
A-2	Complainant withdrew complaint	The complainant withdrew the complaint and the complainant's testimony is necessary to meet the burden of proof.
A-3	Unique Closure (Explanation from Panel)	Any concerns regarding the Respondent have been resolved through corrective action, license revocation, and suspension, death of Respondent or other circumstances. <ul style="list-style-type: none"> • (Explanation) _____ _____ _____
A-5	Evidence does not support a violation	<ul style="list-style-type: none"> • The evidence is not sufficient to establish by clear, cogent, and convincing evidence that the Respondent violated any UDA provision. • This includes situations in which the investigator was unable to obtain all material evidence. •
A-7	Mistaken Identity	The case opened under the wrong Respondent's name.
A-8	No Jurisdiction	Respondent is not licensed in Washington, has never been licensed in Washington, and is not applying for a license in Washington.
A-11	No Whistleblower Release	Complainant would not sign a whistleblower release and the release of complainant's identity is necessary to prove a UDA violation.
A-12	Risk Minimal-Not likely to reoccur	There is sufficient evidence that the Respondent violated the UDA, but the evidence indicates that: <ul style="list-style-type: none"> (a) The violation is not likely to reoccur and (b) Closure poses no more than a minimal risk to the public.

PRIOR CASE HISTORY:

None.

GENERAL CASE SUMMARY

COMPLAINT / ALLEGATIONS:

Patient alleges medical negligence by Respondent which resulted in avoidable pain and ultimate loss of left ovary and fallopian tube, as a consequence of not responding appropriately in a timely manner to a request for consultation / intervention from the PA-C at the ED. Patient contends that the Left Salpingo-Oophorectomy performed two days later to remove an Ovarian Cyst might have been avoidable had the Respondent evaluated and treated the Patient earlier.

CASE REVIEW:

The Complainant/patient summarizes her complaint by writing that if the Respondent had acted in a medically responsible way, she would have simply come downstairs to the emergency room and had a look at her and her radiology results. She would have realized the seriousness of her condition and the patient would have had a chance at keeping her ovary and fallopian tube. The Respondent relied upon the incorrect information given by a physician assistant who was not qualified to handle her case.

The Respondent is a board certified obstetrician-gynecologist FACOG with current experience in obstetrics in hospital and birth center settings, outpatient gynecology including office based procedures, infertility, and management of dysplasia, and skilled gynecological surgeon. She is presently the Medical Director – Staff Obstetrician-Gynecologist at the David Grant Medical Center at Travis Air Force Base in California.

NOTE: The Respondent and Complainant are both in California, and the incident took place in California at Travis AFB.

On 02/28/2015, the day before the incident, the patient was seen in the Travis AFB ED for abdominal pain where she underwent an ultrasound for left lower abdominal pain with a history of ovarian cyst. The impression showed a 11.3 x 9.5 x 9.3 cm simple left ovarian cyst without sonographic evidence for active ovarian torsion. The patient was discharged home with instructions to make an appointment the following week with OB/GYN and told to return to the clinic immediately if her condition worsened. p. 015

The following day which is the date of incident (03/01/2015), the patient was taken by ambulance to the Emergency Department where it was noted under the history of present illness that she was having severe LLQ (Left Lower Quadrant)

pain. It documents that the patient had been seen the day before in the ED with similar symptoms and diagnosed with a large left ovarian cyst. p. 024

The Review of System shows that she was having abdominal pain, nausea and vomiting, but she subjectively denied diarrhea, melena, and bright red blood per rectum. p. 024

The Physical Exam noted that the patient was in distress due to pain and that she had LLQ tenderness to palpation but the abdomen was soft and non-distended. p. 024

A second pelvic ultrasound was conducted on 03/01/15 for comparison to a previous ultrasound and showed the indication as known large left ovarian cyst with acute worsening of pain. The Impression showed a redemonstration of a 11.2 cm left adnexal cyst with preserved arterial and venous waveforms of the left ovary. There was also a slight interval increase of free fluid in the pelvis with the recommendation of clinical correlation. p. 027

The Medical Decision Making shows that the patient presented with worsening of the left ovarian pain, but there was no evidence of torsion. The patient was discussed with the OB/GYN and it was decided that the patient was to have a follow up scheduled for the next day for possible surgical treatment. The discharge medications were also discussed with the Respondent as the patient was breast feeding her infant. p. 025

The second part of the Medical Decision Making annotates that the patient was concerned about going home due to her pain, so the provider documents that he discussed admission with the Respondent for pain control. It was recommended the patient proceed with outpatient management since her pain seemed to be reasonably controlled and no surgical emergency was present. She was discharged home on Motrin, Norco, and Zofran. p. 025

The patient was seen on 03/02/2015 by gynecology with a diagnosis of ovarian cyst. It was annotated that given the size of the cyst and pain, it was recommended to have surgical management given the risk of torsion and continued pain despite narcotics. p. 037

She underwent a laparoscopic left salpingoophrectomy on 03/03/2015 and was found to have an ovarian torsion. pp. 028-029

A pathology report collected on 03/03/2015 shows a final diagnosis of benign hemorrhagic cyst of undetermined origin with features compatible with torsion. p. 061a

The Respondent writes that she was never asked by the ER provider or the supervising ER physician to come to the bedside to examine the patient. She

was first called as the specialist consultant to provide the patient clinical aftercare which was scheduled for the next day. She was called a second time by the same PA and notified that the patient requested to be admitted. The Respondent requested further clinical history and offered to go to the bedside to evaluate the patient for consideration of admission for pain control. The PA informed the Respondent that the patient did not have a surgical abdomen and that admission was unnecessary as her pain had improved with medication.

p. 024

The Respondent continues that the pelvic ultrasound on 03/01/2015 verifies that the ovary and tube had positive blood flow. She states that the patient was seen on 03/02/2015 and offered admission for serial exam and pain control, which she refused against medical advice so that she could take her cat to a veterinary appointment later that day. She returned on 03/03/2015 for outpatient surgery.

p. 044

This file is forwarded for review.

12/30/2015	Complainant notification mailed
01/05/2016	Assigned to Yorgensen C 04
01/15/2016	File received.
01/15/2016	Signed/Approved WBW received.
01/19/2016	Respondent Notification mailed
01/26/2016	Email from Respondent regarding receipt of notification.
02/01/2016	Telephone Interview with the Complainant. See Memo.
03/15/2016	Letter sent to Complainant with military medical release forms.
04/20/2016	Received a fax of medical records from 10/15/2015 to 02/25/2016. I did not receive the requested dates of 02/28/2014 to 03/10/2015. Will discuss with the Chief Investigator.
04/25/2016	Discussed with Investigator Correa. Will call Travis and get correct records.
04/26/2016	I spoke with Ms. Terry Gadd at Travis AFB medical records at 707-423-5353. She asked me to fax the original request to her again and she will get them to me today.
04/26/2016	Terry from Travis called to say that she has the records and will put into the overnight mail today.
04/26/2016	I sent an email to the Respondent at Carla.torresmd@gmail.com asking for an updated address. The address in ILRS lists a California address.
04/26/2016	Received a return email from the Respondent stating that the address is current and to please send what need completed.

04/26/2017 Mailed Respondent LOC to Napa, CA address. Due NLT 13May2016.

04/28/2016 Received correct records by express mail from Travis AFB.

05/02/2016 Received an email from the Respondent stating that she was familiar with the case. She will provide me with a hard copy of the peer review that was done if she is allowed to by the military. She will send me her response and cv as requested.

05/10/2016 Received Respondent Statement by email with attachments of a CV, CME's, and a standard of care review.

05/10/2016 I received a phone message from a Cpt. Trudeau (sp?) at 530-859-5443 stating that he just had a few questions about our procedures.

05/11/2016 I attempted to return the call but got his answering machine. I identified myself and left my contact information.

05/11/2016 I did not discuss the specific case as there is no letter of representation. I answered generally any questions on our complaint investigative process. He just wanted to ensure that I knew the standard of care report submitted by the Respondent was confidential.

05/11/2016 Received Respondent Statement by mail.

05/23/2016 File reviewed.

05/24/2016 File prepared for final report writing.

05/25/2016 Investigative report completed and printed.

05/26/2016 File submitted to supervisor.

You may mail, email or fax this form to the Medical Quality Assurance Commission at the physical address, email address, or fax number above.

Medical negligence on behalf of Dr. Carla Torres directly contributed to the patient's (my) loss of her left ovary and Fallopian tube preceded by two completely unnecessary days of agonizing pain endured while vomiting profusely, unable to eat, defecate, or urinate. As the consulting physician (specialist being consulted) she was negligent by opting not to examine the patient herself after receiving a second phone call from the Emergency room concerning a patient who was begging to be seen. Please, see attached.

Please include additional sheets as necessary.

Please, examine my medical records closely. They show that hospital staff were fully aware as of almost one year prior (March 25, 2014) that I, 25 Whistleblower had an enormous ovarian cyst (6.5 x 7.5 x 5.6 centimeters, which is just one half of a centimeter under the normal size threshold for surgical intervention). I did not have symptoms (as far as I knew) until February 28, 2015. I became very ill and went to the emergency room at David Grant Medical Center. They found then that the cyst was then 11.3 x 9.5 x 9.3 centimeters and there were trace amounts of free fluid within the pelvic cavity (the ovary was hemorrhaging). By the end of my visit I felt well enough that the doctor opted to send me home, but advised that I would need to see an OB-GYN early that following week for further evaluation. I was also instructed to come right back immediately if my condition worsened at all.

Sunday morning (March 1, 2015) my condition worsened drastically. So drastically that I was unable to return under my own power—I was transported in an ambulance and finally consented to pain medications. The pain medications were totally ineffectual. I arrived crying, moaning, and occasionally screaming while writhing in agony on a hospital gurney. I was unable to move myself onto the hospital bed. I was seen by a Physician Assistant by the name of Mr. Lance Camacho (he passed himself off to me and my husband as a doctor, though). I informed them all of the cyst and that I was certain it had torsed because of the incredibly dramatic increase in pain from the day before. They opted to make me wait a few hours to do another ultrasound (the exact same treatment from the night before). They found essentially the same results except that there was more “trace fluid” in the pelvic cavity. Mr. Camacho consulted over the telephone with Dr. Torres the OB-GYN on call. They agreed that I should be sent home. Mr. Camacho discharged me with Ibuprofen (even though he knew that the pain medications had had zero effect on my condition at all). I was still vomiting uncontrollably and in complete agony. I was unable to urinate or defecate and walking was extremely difficult at that point.

I begged them to refer me to another hospital with an OB-GYN, but they refused. I begged them to get an OB-GYN to see me, but they refused. Mr. Camacho came to speak to us in the Triage area and told us that he had spoken to Dr. Torres again over the phone, but she would not do anything to help my condition. They insisted that I wait and make an appointment to be seen the following weekday in the Women’s Health Clinic. I begged while crying and vomiting from the pain still, but they would not help.

I was seen the next morning by Dr. Allison Van Haastert, who realized at that point that my condition was very severe. Dr. Van Haastert admitted me for pain management that day with surgery to follow first thing in the morning (it was already mid-day by the time I was seen at Women’s Health). The following morning she discovered that the ovary was hemorrhaging significantly and had torsed a full three times around the IP ligament and curled partially around the large intestine. She was forced to remove the ovary and the fallopian tube. Following the surgery she admitted to me that, indeed, I should have gone to surgery right away on Sunday rather than have been forced to wait an extra two days in agony and unable to care for my five-month-old infant.

In sum, if Dr. Torres had acted in a medically responsible way she would have simply come downstairs to the emergency room and had a look at me and my radiology results. She would have realized the seriousness of my condition and I would have had a chance at keeping my

ovary and fallopian tube. Dr. Torres relied upon the incorrect information given by a Physician Assistant who was not qualified to handle my case.

On June 24, 2015 I met with Dr. Van Haastert, Dr. Ramone Toliver (the ER physician from Saturday February 28, 2015), Dr. Brown (the ER Commander), Lance Camacho (the incompetent PA masquerading as a doctor), and Mattie Howard-Bey (the Healthcare Resolutions Specialist for DGMC). I confronted Mr. Camacho with the numerous errors he made in my medical records, the horrid agony he had forced me to endure, and his part in the loss of my ovary and fallopian tube. He admitted to all of the errors and apologized in front of all of the aforementioned people. All of the aforementioned people can verify that he admitted that the incorrect information in my records he knew was incorrect.

I respectfully request that a formal acknowledgment of Dr. Torres's medical negligence be issued to me in addition to whatever administrative action you see fit to be taken against Dr. Torres.

Current and/or historical medical school

UNIVERSITY OF TEXAS MEDICAL SCHOOL AT HOUSTON

Degree Awarded: YES
Degree Year: 2002

Current and/or historical post graduate medical training programs accredited by the Accreditation Council for Graduate Medical Education (ACGME)

Beginning with the 2010 cycle of the National GME Census, post-graduate training segments will include the name of the program attended in addition to the sponsoring institution. Program-level information prior to 2010 will not be available for reporting. Future training dates, as reported by the program, should be interpreted as "in progress" or "current" with the projected date of completion.

Post-graduate training performed at accredited osteopathic institutions or in Canada are updated on the AMA Physician Masterfile only upon verification by the program. US licensing authorities accept graduate medical education from both entities as equivalent to training performed in a US program accredited by ACGME.

If a segment below is indicated as "being re-verified", it typically means that the physician is a current resident and the AMA is confirming with the residency program that the physician is still enrolled - this standard process occurs on an annual basis.

Sponsoring Institution: KEESLER MEDICAL CENTER
Sponsoring State: MISSISSIPPI
Specialty: OBSTETRICS & GYNECOLOGY
Dates: 7/2002 - 6/2005* (Verified)

****Program reports partial training completed at this institution. Please review final postgraduate training segment(s) to determine completion.**

Specialty Board Certification

Specialty Board Certification(s) by one or more of the 24 boards recognized by the American Board of Medical Specialties (ABMS) and the American Medical Association (AMA) through the Liaison Committee on Specialty Boards, as reported by the ABMS:

The AMA Physician Profile has been designated by the ABMS as an Official ABMS Display Agent of Member Board Certification data. Therefore, the ABMS Board Certification information on the AMA Physician Profile is considered a designated equivalent source in regard to credentialing standards set forth by Joint Commission. The AMA is also an NCQA-approved source for verification of medical school, postgraduate medical training, ABMS Board certification, and Federal DEA registration.

Certifying board: AMERICAN BOARD OF OBSTETRICS AND GYNECOLOGY
Certificate: OBSTETRICS & GYNECOLOGY
Certificate type: GENERAL

None Reported

Only the last three characters of active DEA numbers are displayed

Many states require their own controlled substances registration/license. Please check with your state licensing authority for requirement information as the AMA does not maintain this information.

ECFMG Certification

Applicant Number:

The Educational Commission for Foreign Medical Graduates (ECFMG) applicant identification number does not imply current ECFMG certification status. To verify ECFMG status, contact the ECFMG Certification Verification Service online at <https://cvsonline2.ecfmg.org/>

Profile Information

The content of the AMA Physician Profile is intended to assist with credentialing. An organization's appropriate use of the data contained in the AMA Physician Masterfile meets selected primary source verification requirements of the Joint Commission, the Accreditation Association for Ambulatory Health Care (AAAHC) and the American Accreditation Health Care Commission(AAHCC)/Utilization Review Accreditation Commission (URAC). The AMA Physician Masterfile is also an NCQA-approved source for verification of medical school, post-graduate medical training, ABMS Board Certification and federal DEA registration.

If any of the data in this Profile is believed to be incorrect, please log in to your account on our profiles website, go to the profile manager tab, find the provider for whom you think we have inaccurate information and click on the "Report" button in the "Report a Discrepancy" column. Enter any of the information that you feel needs to be researched. The AMA will contact the primary source of the data to determine which data is correct. We will notify you of the outcome of our research. If any changes are made to the profile we will update the link in profile manager for this provider so that you can access the new, updated information.

If you have any questions or need additional information about the AMA Physician Profile Service, please call (800) 665-2882.

July 6, 2016

Carla E. Torres, MD

23 LicenseeAddress

RE: Carla E. Torres, MD
Case No. 2015-12419

Dear Dr. Torres:

The Medical Quality Assurance Commission has completed its investigation. The Commission is committed to protecting the health and safety of the citizens of the State of Washington. The Commission takes every complaint seriously.

To take disciplinary action against a license, the Commission is required to prove by clear and convincing evidence, a high burden of proof, that the physician's conduct violated the law. A panel typically comprised of ten physician(s), physician assistant(s), and public member(s) considered the evidence and discussed this case. After careful review of the information gathered during the investigation, the Commission determined that, considering the evidence available and the risk to the public, the evidence would not support a finding of unprofessional conduct and closed the case.

Washington State law provides you with the right to submit an additional written statement if you wish. Any statement you provide will be added to the investigative file. The investigative file is subject to public release pursuant to the Washington State Public Records Act.

The Washington State Public Records Act also provides you with the right to request copies of documents from the investigative file. If you would like a copy of the investigative report, or copies of documents gathered during the investigation, please submit a request to the Department of Health, Public Disclosure Unit, PO Box 47865, Olympia, WA 98504-7865, fax your request to 360-586-2171, or send the request by email to pdrc@doh.wa.gov.

The Commission thanks you for your cooperation during this investigation and your assistance in our joint mission of patient safety. The Commission understands that being investigated may be disconcerting and inconvenient. Many physicians use this experience to initiate a self-critique of their practice and, when indicated, modify or improve certain areas of practice.

Respectfully,

A handwritten signature in black ink, appearing to read "Rick Glein".

Rick Glein, JD, Director of Legal Services
Medical Quality Assurance Commission

25 Whistleblower

RE: Carla E. Torres, MD
Case No. 2015-12419

Dear 25 Whistleblower :

The Medical Quality Assurance Commission has completed their review of your complaint concerning Carla E. Torres, MD. The Commission is committed to protecting the health and safety of citizens of the State of Washington. The Commission takes every complaint seriously.

Our law basically states that incompetence, negligence or malpractice that result in injury to a patient or that creates an unreasonable risk of harm to a patient could be considered to be unprofessional conduct.

Decisions regarding whether the physician or physician assistant met the standard of care can be very difficult. Sometimes negative outcomes occur when no law is broken – there may be actual harm to the patient, but the actions taken by the practitioner do not meet the “legal” definition of harm.

To take disciplinary action against a license, the Commission is required to prove by clear and convincing evidence, a high burden of proof, that the physician’s conduct violated the law. A panel typically comprised of ten physician(s), physician assistant(s), and public member(s) considered the evidence and discussed this case. After careful review of the information gathered during the investigation, the Commission determined that, considering the evidence available and the risk to the public, the evidence would not support a finding of unprofessional conduct and closed the case.

If you have additional information to submit, you may request that the Commission reconsider their decision by providing **new information** within 30 days of receiving this letter. Please e-mail this information to medical.reconsiderations@doh.wa.gov or mail it to the address above.

You may order a copy of the case file by contacting the Public Disclosure Records Center at PO Box 47865, Olympia, WA 98504-7865, faxing your request to 360-586-2171, or e-mailing them at pdrc@doh.wa.gov.

The Medical Commission is committed to protecting the health and safety of the public. Although we could not pursue your case any further, we thank you for bringing your concerns to our attention.

Sincerely,

A handwritten signature in black ink, appearing to read "Rick Glein".

Rick Glein, JD, Director of Legal Services
Medical Quality Assurance Commission

You may mail, email or fax this form to the Medical Quality Assurance Commission at the physical address, email address, or fax number above.

Medical negligence on behalf of Dr. Carla Torres directly contributed to the patient's (my) loss of her left ovary and Fallopian tube preceded by two completely unnecessary days of agonizing pain endured while vomiting profusely, unable to eat, defecate, or urinate. As the consulting physician (specialist being consulted) she was negligent by opting not to examine the patient herself after receiving a second phone call from the Emergency room concerning a patient who was begging to be seen. Please, see attached.

Please include additional sheets as necessary.

Please, examine my medical records closely. They show that hospital staff were fully aware as of almost one year prior (March 25, 2014) that I, 25 Whistleblower had an enormous ovarian cyst (6.5 x 7.5 x 5.6 centimeters, which is just one half of a centimeter under the normal size threshold for surgical intervention). I did not have symptoms (as far as I knew) until February 28, 2015. I became very ill and went to the emergency room at David Grant Medical Center. They found then that the cyst was then 11.3 x 9.5 x 9.3 centimeters and there were trace amounts of free fluid within the pelvic cavity (the ovary was hemorrhaging). By the end of my visit I felt well enough that the doctor opted to send me home, but advised that I would need to see an OB-GYN early that following week for further evaluation. I was also instructed to come right back immediately if my condition worsened at all.

Sunday morning (March 1, 2015) my condition worsened drastically. So drastically that I was unable to return under my own power—I was transported in an ambulance and finally consented to pain medications. The pain medications were totally ineffectual. I arrived crying, moaning, and occasionally screaming while writhing in agony on a hospital gurney. I was unable to move myself onto the hospital bed. I was seen by a Physician Assistant by the name of Mr. Lance Camacho (he passed himself off to me and my husband as a doctor, though). I informed them all of the cyst and that I was certain it had torsed because of the incredibly dramatic increase in pain from the day before. They opted to make me wait a few hours to do another ultrasound (the exact same treatment from the night before). They found essentially the same results except that there was more “trace fluid” in the pelvic cavity. Mr. Camacho consulted over the telephone with Dr. Torres the OB-GYN on call. They agreed that I should be sent home. Mr. Camacho discharged me with Ibuprofen (even though he knew that the pain medications had had zero effect on my condition at all). I was still vomiting uncontrollably and in complete agony. I was unable to urinate or defecate and walking was extremely difficult at that point.

I begged them to refer me to another hospital with an OB-GYN, but they refused. I begged them to get an OB-GYN to see me, but they refused. Mr. Camacho came to speak to us in the Triage area and told us that he had spoken to Dr. Torres again over the phone, but she would not do anything to help my condition. They insisted that I wait and make an appointment to be seen the following weekday in the Women’s Health Clinic. I begged while crying and vomiting from the pain still, but they would not help.

I was seen the next morning by Dr. Allison Van Haastert, who realized at that point that my condition was very severe. Dr. Van Haastert admitted me for pain management that day with surgery to follow first thing in the morning (it was already mid-day by the time I was seen at Women’s Health). The following morning she discovered that the ovary was hemorrhaging significantly and had torsed a full three times around the IP ligament and curled partially around the large intestine. She was forced to remove the ovary and the fallopian tube. Following the surgery she admitted to me that, indeed, I should have gone to surgery right away on Sunday rather than have been forced to wait an extra two days in agony and unable to care for my five-month-old infant.

In sum, if Dr. Torres had acted in a medically responsible way she would have simply come downstairs to the emergency room and had a look at me and my radiology results. She would have realized the seriousness of my condition and I would have had a chance at keeping my

ovary and fallopian tube. Dr. Torres relied upon the incorrect information given by a Physician Assistant who was not qualified to handle my case.

On June 24, 2015 I met with Dr. Van Haastert, Dr. Ramone Toliver (the ER physician from Saturday February 28, 2015), Dr. Brown (the ER Commander), Lance Camacho (the incompetent PA masquerading as a doctor), and Mattie Howard-Bey (the Healthcare Resolutions Specialist for DGMC). I confronted Mr. Camacho with the numerous errors he made in my medical records, the horrid agony he had forced me to endure, and his part in the loss of my ovary and fallopian tube. He admitted to all of the errors and apologized in front of all of the aforementioned people. All of the aforementioned people can verify that he admitted that the incorrect information in my records he knew was incorrect.

I respectfully request that a formal acknowledgment of Dr. Torres's medical negligence be issued to me in addition to whatever administrative action you see fit to be taken against Dr. Torres.

**DEPARTMENT OF HEALTH
MEDICAL QUALITY ASSURANCE COMMISSION
MEDICAL INVESTIGATIONS**

MEMORANDUM TO FILE

DATE: February 1, 2016

TIME: 9:40am

CASE #:2015-12419MD

RE: Telephone Interview with the Complainant

FROM: Michael L. Yorgensen Health Care Investigator

I called the Complainant and introduced myself by title, name, and who I represent.

I asked her if she had time to discuss the complaint and she replied affirmatively.

I reviewed names, dates, and facility information.

The Complainant provides the following dates:

Feb 28, 2015	ED visit for abdominal pain
March 1, 2015	ED for worsening pain and Date of Incident
March 2, 2015	Seen by OB/GYN
March 3, 2015	Surgery

Summary of Complaint: The Respondent would not come and physically evaluate the Complainant and only gave instructions over the phone to the ED provider. As a result, she lost her ovary.

The Complainant submitted notes and ultrasound results for the two ED visits and the surgical note.

She has recently requested a complete copy of notes and states that she does have a copy of the ob/gyn office visit for March 2, 2016 which she will send me.

She states that she is unhappy with care at the Travis AFB Hospital and was given an option by the hospital commander to be seen by civilian providers outside the system. She has declined due to the costs associated with seeing outside providers.

I explained the investigative process and gave possible timeline.

An opportunity for further questions was given.

My contact information was given to include phone number, fax number, and email.

The Call ended.

**DEPARTMENT OF HEALTH
MEDICAL QUALITY ASSURANCE COMMISSION
MEDICAL INVESTIGATIONS**

MEMORANDUM TO FILE

DATE: May 11, 2016

TIME: 10:00am

CASE #:2015-12419MD

RE: Telephone Interview with Travis AFB Attorney

FROM: Michael L. Yorgensen Health Care Investigator

I returned a call to Mr. Fredette as he had left me two messages.

I advised him that I could not discuss the case because there was no letter of representation.

He stated that he had spoken with the Respondent and informed her that he worked for the hospital so could not really advise her in this case. He did inform her that she could include a redacted standard of Care review that was done by the Travis hospital, so he wanted to make sure that we understood that it is confidential and not to be disseminated to anyone else besides the commission.

I let him know that we were aware of the confidentiality and will treat it as such.

He thanked me for returning his call.

The call ended.

DEPARTMENT OF THE AIR FORCE
60TH SURGICAL OPERATIONS SQUADRON (AMC)

RECEIVED

MAY 11 2016

DEPARTMENT OF HEALTH
MEDICAL COMMISSION

May 3, 2016

MEMORANDUM FOR: DOH Medical Quality Assurance Commission c/o Michael Yorgensen

FROM: Carla Torres MD Lt. Col MC USAF

SUBJECT: Response RE File #2015-12419MD

Mr Yorgensen, in response to your inquiry dated April 26, 2016, I am submitting the following documents;

1. Response to items 1-6 of inquiry
2. Redacted Standard of Care review provided to the 60th Medical Group's Quality Assurance Office regarding this case and my contributions
3. Memorandum from Capt Kalen Fredette USAF Medical Law Consultant verifying releasability of Standard of Care Review

Response to allegation that as the consulting specialist, I was negligent by opting not to examine the patient after receiving a second phone call from PA Lance Camacho from the ER.

I was never asked by the treating ER provider Lance Camacho, nor the supervising ER physician Dr Ramone Toliver to come to bedside to examine the patient. I was first called as the specialist consultant to provide the patient clinical aftercare, which was scheduled for the next day. I was called a second time by the same PA and notified that the patient requested to be admitted. I requested further clinical history and offered to come to bedside to evaluate the patient for consideration of admission for pain control. As noted in the Standard of Care document, the PA informed me that the patient did not have a surgical abdomen, that admission was unnecessary and that her pain had improved with medication. The ER provider documented that the patient had clinically improved with medication and discharged her.

MD 2015-12419-000043

25 Whistleblower is aware that a bedside specialist consultation was not requested and that her record reflects that she was discharged in good condition. She notes in her DOH complaint that she had a healthcare resolution meeting on June 24, 2015 with the PA, his supervising ER physician, and the Director of Emergency Medicine where this was discussed. During that meeting and in the subsequent Quality Assurance and Peer Review, there has never been an accusation against me that, as the on-call specialist, I refused a provider's request to evaluate a patient in the ER.

Response to the allegation that medical negligence on my behalf directly contributed to the patient's loss of her left ovary and fallopian tube.

This allegation is not supported by the medical record and the pelvic ultrasound on 1 March 2015. Contrary to her allegation, the ultrasound verifies that the ovary and tube had positive blood flow and at that ER visit she did not have the torsion that later occurred resulting in the removal of her tube and ovary.

As noted in the chronological summary of care, the patient was seen by a gyn physician on the 2 March appointment that I had scheduled via ER consultation. She was offered admission at that time for serial exam and pain control, which she refused against medical advice so that she could take her cat to a veterinary appointment later that day. She returned on 3 March for outpatient surgery, during which time it was discovered that she had ovarian torsion.

This patient has not proceeded with a malpractice claim due to the fact that the torsion that occurred after her 2 March ultrasound may have been attributed to or at least exacerbated by her refusal of medical care.

Response to allegation that I relied upon incorrect information given by a physician assistant who was not qualified to handle the case.

I relied upon the medical information provided to me and documented in the medical record. I am not responsible for the supervision or management for the midlevel providers employed by the Emergency Department.

Explanation for choosing not to examine the patient

As stated above, I was not asked for a bedside consultation. I was only asked to provide ER follow up.

CV and CME for 2014-2015 enclosed

Pertinent Medical documentation

I have been advised by my Medical Legal Consultant, see attached memo, that the redacted Standard of Care document is all that I can release at this time. I do have access

to the patient's medical records, her case file with our Quality Assurance Department, her claims against numerous physicians and physician assistants and documentation that supports the redacted SOC review. I have been advised that the document sent by the DOH does not contain appropriate medical release to allow me to make available [REDACTED] ²⁵ clinical record or personal information.

If you find that your investigation requires the additional documentation, I look forward to providing it once the requisition is approved by my Medical Legal and HIPPA office.

I appreciate your thorough consideration of this case and truly am available for any request you may have to settle this matter.

5/3/2016

Subject: FOUO\ releasability of the SOC to Washington
Signed By: kalen.fredette.1@us.af.mil

This e-mail contains FOR OFFICIAL USE ONLY (FOUO)

Ma'am,

BLUF: The redacted SOC that you showed me is releasable to the Department of Health Medical Quality Assurance Commission.

The SOC Review is a Medical Quality Assurance document and generally protected from release by 10 USC 1102. However, the release of the redacted review is permitted under an enumerated exception; that is, 10 USC 1102(c)(1)(c) "To a governmental board or agency or to a professional health care society or organization, if such medical quality assurance record or testimony is needed by such board, agency, society, or organization to perform licensing, credentialing, or the monitoring of professional standards with respect to any health care provider who is or was a member or an employee of the Department of Defense."

Please let me know if you have any further questions or concerns.

Release Authorization

I understand that:

- a. I have the right to revoke this authorization at any time. My revocation must be in writing and provided to the facility where my medical records are kept or to the TMC Privacy Officer if this is an authorization for information possessed by the TRICARE Health Plan rather than an MTF or DTF. I am aware that if I later revoke this authorization, the person(s) I herein name will have used and/or disclosed my protected information on the basis of this authorization.
- b. If I authorize my protected health information to be disclosed to someone who is not required to comply with federal privacy protection regulations, then such information may be re-disclosed and would not longer be protected.
- c. I have a right to inspect and receive a copy of my own protected health information to be used or disclosed, in accordance with the requirements of the federal privacy protection regulations found in the Privacy Act and 45 CFR § 164.524.
- d. The Military Health System (which includes the TRICARE Health Plan) may not condition treatment in MTFs/DTFs, payment by the TRICARE Health Plan, enrollment in the TRICARE Health Plan or eligibility for TRICARE Health Plan benefits on failure to obtain this authorization.

I request and authorize the named provider/treatment facility/TRICARE Health Plan to release the information described above to the named individual/organization indicated.

This authorization shall become effective immediately and shall remain in effect until the release of medical information is completed or until date specified: 04/03/2017

This date shall not exceed one year.
