

Profile - 060.0003579

This profile contains information that may be used as a starting point in evaluating a health care provider. This profile should not, however, be the sole basis for selecting a health care provider. The information on the profile is continuously updated and reflects the information in the Board's files.

Name Catherine Romanos
 Credential 060.0003579

Profile - General Information

Year began practice anywhere

Last Name:
 Romanos

First Name:
 Catherine

Middle Name:

Name Suffix:

Staff Privilege(s):

Facility Name	State	Start Date	End Date
---------------	-------	------------	----------

Practice Location(s):

Practice Name	City	State	Primary Practice	Languages	Accepts Medicaid?	Accepts New Medicaid Patients?
FAHC Dept of Orthopedics	BURLINGTON	Vermont	Yes		No	No

Profile - Medical Education Information

Medical Schools:

School	Graduation Date

---------------------	---------------	-------	-----------------------	------------------------

Other Hospital Restrictons:

Date	Hospital Name	State	Action	Nature of Action	In Lieu or In Settlement
------	---------------	-------	--------	------------------	--------------------------

Profile - Malpractice Information

Judgment(s):

When considering malpractice data, please keep in mind:

- Malpractice histories tend to vary by specialty. Physicians treating certain patients and performing certain procedures are more likely to be the subject of litigation than others.
- This report reflects data for the last 10 years of a doctor's practice. For doctors practicing less than 10 years, the data covers their total years of practice. Patients should take into account how long the doctor has been in practice when considering malpractice information.
- The incident causing the malpractice claim may have happened years before a payment is finally made. Sometimes, it takes a long time for a malpractice lawsuit to move through the legal system.
- Some doctors work with high-risk patients. These doctors may have malpractice histories that are higher than average because they specialize in cases or patients who are at a very high risk of problems. Doctors who treat these high risk patients may include doctors with excellent skills and experience. Patients should evaluate physicians' level of skill, education and experience as well as their malpractice histories.
- Settlement of a claim may occur for reasons other than liability which do not necessarily reflect negatively on the professional conduct or competence of the physician. A payment or settlement of a medical malpractice action or claim does not necessarily mean that medical malpractice has occurred.

Date of Judgment	Number of Judgments
------------------	---------------------

Settlement(s):
