Good Afternoon Barbara,

This is great news, thank you.

Yes, the below information is correct.

To answer your pharmacy question, we do not have any on site pharmacies. When the '340b Pharmacy' was previously mentioned, it was in reference to our overall program, not a physical site.

On our 16th street operating certificate, all of our extension clinics and school based health centers are listed. All of these will be transferred to our 1824 Madison operating certificate, correct?

Lastly, there is a line on our 16th Street operating certificate labeled 'Medical Services – Other Medical Specialties'. Are we able to transfer that to the 1824 Madison operating certificate?

Please confirm.

Thank you for working so diligently on this for us, it is very much appreciated.

Thank you,
Tracey

Subject: RE: Moving Main Operating Site

Tracey, the programmers have determined what they need to do in NYSECON when we change the main site. Now we have to get our ducks in a row from the operating certificate perspective.

My understanding is that the following is being requested:

Current Main Site

(to become an extension site)

Facility ID: 4336

Name/Address:

Institute for Urban Family Health/Sidney Hillman Center

16 East 16th Street

New York, New York 10003

Services remain the same

Proposed Main Site

(current extension clinic)

Facility ID: 9375

Name/Address:

Family Health Center of Harlem

1824 Madison Avenue

New York, New York 10034

Services remain the same

One question the Regional Office raised was about pharmacy services. They do not believe the Harlem site currently has a pharmacy. Will the pharmacy continue to be located at 16th Street for the immediate future? Or is it moving to the Harlem site now?

Once you answer the RO's question and confirm the request we will work with our programmers to schedule a date – probably in two weeks due to their schedule, but definitely before August 1st.

Barbara,

Thank you for looking into this so quickly. I certainly don't want to be a pest although we are on a tight timeframe for moving all of our services to Harlem.

I understand the complexity associated with the HCS system and all of the below open CON #s are DSRIP projects that we are currently working on. It is important for us to continue to have access to the CONs.

Is it possible for you to give me an estimated timeframe for this to be done?

Thank you for your help!

Tracey

Subject: RE: Moving Main Operating Site

We can handle the change in main site administratively in our operating certificate unit. As such, based on your email we could make the change now.

However.....

Now the technical, tricky part: NYSECON access and CON submissions are keyed on the main site of an operating certificate. I see in NYSECON that you have four NYSECON submitted projects which are not yet complete:

151032
162098
162129
162551

If we change the main site in the operating certificate system we'll need to get computer programmers to change the current main site Facility ID in NYSECON to the new main site Facility ID. I'm not certain how long that process takes. I'll want to coordinate changing the main site with them to make sure you don't get locked out of those projects.

Also, you will have to make sure the people who handle CONs for your organization have the correct roles in the HCS system for the newly designated main site (HCS roles are site specific for the most part). From what I can see that means you and Edward Fried at a minimum and maybe Tiffany Wyre. I suggest you add the appropriate people to the appropriate CON roles to the Harlem site now while we work on the other piece.

Once we can accomplish the change in main site without causing an access issue to the CONs in NYSECON we will do so, notify you, and generate the revised opcerts.

Good Morning Barbara,

I am following up on the request below.

We would like our main operating site certificate to be re-issued to list our Harlem site at 1824 Madison Avenue in place of 16 East 16th Street.

Any guidance on how to complete this would be appreciated.

Thank you for your help.

Subject: Moving Main Operating Site

Good Afternoon Barbara,

Hope all is well.

I was hoping you could provide some guidance in reference to transferring our main operating site address.

Our current main operating site is located at 16 East 16th Street although we will be closing that site as we are losing the lease for the building.

We will complete a closing plan for that site in the future (anticipated closing in January 2018) although we would like to move our main operating site to our Harlem Family Health Center located at 1824 Madison Avenue as soon as possible. This is already a fully operational article 28 site with all approved services that our main site holds. I have attached the operating certificate of the site we would like to make our main site with an NPI number for reference.

Do you know the process in which we can do this? I have researched on the DOH website and can't seem to find an application and/or process to do so.

Thank you for any help you are able to provide.
