MEMORANDUM FOR NEW MEXICO MEDICAL BOARD

SUBJECT: Record of Medical Care

1. This memo is to clarify Dr Sasso's past medical care. Dr Sasso is an applicant for a New Mexico medical license and I am currently his primary care physician.
2. Dr Sasso was diagnosed with and treated for depression and obstructive sleep apnea during his residency program in the National Capital Consortium, which negatively impacted his academic performance. He was diagnosed with depression in 2011 and treated with counseling and medication until 2012. He was diagnosed with obstructive sleep apnea in 2010 and underwent a surgical procedure in 2012, which corrected the condition. He has not required counseling or other treatment for either condition since then.
3. I highly recommend Dr Sasso for licensure in New Mexico. He is a highly proficient and respected physician, and a valued colleague.

A handwritten signature in black ink, appearing to read "Lisa Shaw".

LISA SHAW, MD
MAJ, MC
Regimental Surgeon
