Dear Attorney General Hilgers:

I am writing to you to make a formal complaint against the Bellevue Health Clinic located at 1002 West Mission. On Wednesday, May 3rd, [REDACTED] observed women going in for abortions. [REDACTED] found this highly unusual, since LeRoy Carhart had died less than one week earlier.

[REDACTED] Mr. Carhart's Dispensing Practitioner Pharmacy License, #1001881. It was rendered Null and Void effective 4/28/23, the day he died.

Who was the abortionist at 1002 West Mission on May 3rd? Who holds the Dispensing Practitioner License for that clinic?

Were abortions done without proper licensing that day?

[REDACTED] a 30 min video of clients arriving with clinic escorts bringing them into the building taken on the morning of May 3rd. I have enclosed this video [REDACTED] of that morning showing the clients arriving with the escorts. The escorts are always a sign that abortions are taking place.

In support of my concerns, [REDACTED] an email sent to Operation Rescue dated May 2nd that said there would be illegal (without proper licensure) abortions done at the clinic on May 3rd. [REDACTED] the sender of the mail as [REDACTED] [REDACTED] provided the name of an abortionist and associate who were supposedly doing the abortions on May 3rd. I have enclosed a copy of that email [REDACTED]

[REDACTED] willing to testify in court about [REDACTED] saw on May 3rd and that [REDACTED] the sender of the email to be [REDACTED]. In [REDACTED]

Very Respectfully,

[REDACTED]
