The TamperSafe® Hologram in the lower left corner certifies the authenticity of this document. Alteration or forgery of the NBME Endorsement of Certification may result in appropriate legal action or other action consistent with applicable policies, and/or a determination of irregular behavior, as described below.

To Test for Authenticity: Touch, rub or breathe on TouchSafe® Fingerprint and the word **VALID** will appear. When liquid bleach is applied to the face of the document, the paper will turn brown. Also, when photocopied, a security statement containing the words **UNOFFICIAL COPY, NOT AN ORIGINAL DOCUMENT**, will appear prominently across the face of the entire document.

INTERPRETATION OF SCORES

NBME Part I and Part II Examinations Prior to June 1991

Unless otherwise noted, the most recent total test and subject scores are reported. The total test score is based on the total number of questions answered correctly on the entire examination and is not the average of the subject scores. There are no minimum pass requirements for individual subjects within a Part. Scores are on a scale with a mean of 500 and a standard deviation of 100, in increments of 5. Most scores fall between 250 and 750.

NBME Part I and Part II Examinations June 1991 and Thereafter

Unless otherwise noted, the most recent total test and subject scores are reported. This score is on a scale with a mean of 200 and a standard deviation of 20, in increments of 1. Most scores fall between 145 and 260.

All NBME Part III Examinations

Unless otherwise noted, the most recent total test and subject scores are reported. This score is on a scale with a mean of 500 and a standard deviation of 100, in increments of 5. Most scores fall between 250 and 750.

Two-Digit NBME Scores

For all NBME scores, an equivalent value scale score on a two-digit scale is also provided. The scale score mean is 82 and the minimum pass total scale score is 75. Scale scores are reported in increments of 1.

USMLE Step 1, Step 2 and Step 3

INTERPRETATION OF RESULTS

USMLE transcripts include a complete examination history. On those Step examinations for which numeric scores are reported, a three-digit scale is used. Most scores fall between 140 and 260 on this scale. The recommended minimum passing score is shown on the front of the transcript next to the examinee's score for each administration along with a pass/fail outcome. Test results reported as passing represent an exam score of 75 or higher on a two-digit scoring scale. The level of proficiency required to meet the recommended minimum passing level for each USMLE Step is reviewed periodically and is subject to change. Such changes do not alter pass/fail outcomes from prior test administrations.

For examinations with reported scores, the Standard Error of Measurement (SEM) provides an index of the variation that would be expected to occur if an examinee were tested repeatedly using different sets of items covering similar content. The SEM is usually in the range of 4 to 8 points.

STEP 2 CLINICAL SKILLS (CS)

Step 2 CS results are reported as pass or fail, with no numeric score. Had the two-digit reporting scale been used, examinees would have had to achieve a score of 75 or higher in order to pass.

ANNOTATIONS APPEARING UNDER "COMMENTS"

Circumstances in connection with an administration shown on this transcript may result in one or more annotations listed next to the score.

A description of each Comment is provided below:

Indeterminate - Results are at or above the passing level but cannot be certified as representing a valid measure of the examinee's knowledge or competence as sampled by the examination. **No score is reported.** Information regarding the nature of the indeterminate score is available. If such information is not enclosed with this transcript, it may be obtained by contacting the organization from which you received the transcript or the USMLE Secretariat, 3750 Market Street, Philadelphia, PA 19104, telephone (215) 590-9700.

Incomplete - The examinee sat for some, but not all, of the scheduled examination. **No score is reported.**

Irregular Behavior - The Committee for Individualized Review determined that the examinee engaged in irregular behavior. Examples of irregular behavior are described in the current edition of the *USMLE Bulletin of Information*. Information regarding the nature of the irregular behavior and the determination of the Committee is available. If such information is not enclosed with this transcript, it may be obtained by contacting the organization from which you received the transcript or the USMLE Secretariat, 3750 Market Street, Philadelphia, PA 19104, telephone (215) 590-9700.

ANNOTATIONS APPEARING AS "NOTE"

Circumstances not in connection with an administration shown on this transcript may result in one or more annotations and an explanation or instructions to contact the appropriate individual or organization. The Note will appear at the end of the document.

PHYSICIAN DATA CENTER INFORMATION APPEARING AS "NOTE"

The Physician Data Center of the Federation of State Medical Boards (FSMB) contains actions reported to the FSMB by U.S. licensing and disciplinary boards, Canadian licensing authorities, the U.S. Armed Forces, the U.S. Department of Health and Human Services, and other credentialing entities. To be included in the Data Center, an action must be a matter of public record or be legally releasable to state medical boards or other entities with recognized authority to review physician credentials. Certain actions reported to and released by the Physician Data Center are not disciplinary or otherwise prejudicial in nature. Such actions are reported to ensure that records are complete and to assist in preventing misrepresentation or the use of lost or stolen credentials by unauthorized persons. Once reported to the FSMB, an action becomes part of the permanent record of the individual physician, and the existence of such an action may be indicated on the USMLE transcript by a Note.
