## Disclaimer

The information contained in this website is being made available as a public service by the Massachusetts Board of Registration in Medicine (the Board). No posted information or material provided is intended to constitute legal or medical advice. The information contained in this website is drawn from information provided to the Board by individual physicians licensed in Massachusetts and reported to the Board from other sources, and the Board cannot guarantee its accuracy or the accuracy of information on other sites accessible through links herein. The Board of Registration in Medicine currently publishes a Profile for each physician who has an Active Massachusetts license. Certain adverse information reported to the Board and published on a Physician's Profile (Massachusetts malpractice payments, Massachusetts criminal actions, Board discipline, Massachusetts health care facility discipline and discipline by licensing boards in other states) is included only if it occurred after November, 1986. The discipline by licensing boards in other states and the criminal activity information which is on a Physician's Profile may not be comprehensive. The Board makes no representations or warranties, either express or implied, by providing information through this web site, and the presence of an individual on the Board's website does not in any way constitute an endorsement by the Board or the Commonwealth of Massachusetts. For more information regarding any information found on the Board's website, please contact us directly at [Borim.Profiles@mass.gov](mailto:Borim.Profiles@mass.gov).

Please note that this licensee does not have an active license and therefore cannot practice medicine in the Commonwealth of Massachusetts. The Board collects information for the years 1986 through the present from multiple sources, including the physician, to create a profile. This physician has a license that is not active and may not have provided current information to the Board, therefore information on the profile may not be current. If the Board receives notice of an adverse action, and the adverse action is verified, the Board will update the profile accordingly.
