PECOS PAC ID	5799912937
PECOS Enrollment ID	I20160707001740

Provider's Legacy Identifiers

There are many medicare related identifications related to medicare providers. Medicare UPIN has been replaced by NPI and is no longer used. A PTAN is a Medicare-only number issued to providers by MACs upon enrollment to Medicare - it is also sometimes called Medicare ID or Medicare PIN. An individual provider can have more than one PTAN number but only one NPI Number.

NPI: [1366848301](#)**Address:** 4200 Farm Hill Blvd, , Redwood City, CA, 94061**Phone:** 650-306-3309 **What is a NPI Number?**

The National Provider Identifier (NPI) is a unique identification number for covered health care providers. The NPI is a 10-position, intelligence-free numeric identifier (10-digit number). This means that the numbers do not carry other information about healthcare providers, such as the state in which they live or their medical specialty.

 Where NPI Should be Used?

The NPI must be used in place of legacy provider identifiers, such as a Unique Provider Identification Number (UPIN), Online Survey Certification & Reporting (OSCAR) and National Supplier Clearinghouse (NSC) in HIPAA standard transactions. Entity Type 1 providers are individual providers who render health care. Organization health care providers are considered Entity Type 2 providers.

 Who Must Obtain NPI?

All health care providers who are HIPAA-covered entities, whether they are individuals (e.g., physicians, nurses, dentists, chiropractors, physical therapists, or pharmacists) or organizations (e.g., hospitals, home health agencies, clinics, nursing homes, laboratories, ambulance companies, group practices) must obtain an NPI.
